Docket No. 2017-370-E

Dear Ms. Boyd:

By Order No. 2018-804, dated December 21, 2018, the Public Service Commission of South Carolina ("Commission") ordered Dominion Energy South Carolina, Inc. ("DESC" or "Company") to provide certain service quality reports on a quarterly basis with the initial report to be made no less than six (6) months after the close of the transaction, which occurred on January 1, 2019. More specifically, for electric operations, the Commission ordered DESC to provide quarterly SAIDI and SAIFI reporting provided by the Company's affiliate in North Carolina and quarterly Call Center Performance Metrics reporting provided by the Company's affiliate in North Carolina. For gas operations, the Commission ordered DESC to file a quarterly service quality report with the same service quality metrics provided by the Company's affiliate in Utah. By Order No. 2019-394, dated May 29, 2019, the

Commission approved certain modifications to the quarterly reports to properly reflect the processes in place in South Carolina.

In compliance with Order Nos. 2018-804 and 2019-394, enclosed herewith is the quarterly service quality report for DESC's electric and gas operations for the quarter ending June 30, 2020.

By copy of this letter, DESC is providing the other parties of record with a copy of the quarterly service quality reporting.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

Matthew W. Gissendanner

Amount of time talking with customer and completing request.	5:11	Automated Call Distribution System	5:32	6:29 ²

Notes:

¹ 2Q20 “Percentage of emergency calls answered within 60 seconds by agent” decreased due to spike in emergency calls during 4/13/20 tornadoes that impacted our service territory. 16% percent of emergency calls for 2Q20 were handled 4/13/20.

² 2Q20 Average Handle Time (AHT) increased due to agents receiving majority of complex calls, as customers utilized self-service features (web, mobile app & interactive voice response system) for less complex requests. Additionally 2Q20’s daily AHT increased 17% vs. 1Q20 due to significantly fewer credit calls and in-depth customer discussions related to Covid19 to better ensure on-site safety for field technicians.
